

WP1: Meetings: Steering Group Agencia Andaluza de la Energía (Andalusian Energy Agency)

Title: “Steering Committee: ANDANER-Association of Local and Regional Andalusian Energy Management Agencies”

Date & Place: 13th January 2005, Seville; 15th December 2005, Granada; 9th May 2006, Jaén

Organisation: Agencia Andaluza de la Energía (Andalusian Energy Agency)

Short description: A **Regional steering group** has been set up, providing invaluable market input as well as being an important dissemination relay on energy efficiency and renewable energy sources. “ANDANER” is the Association of Local and Regional Andalusian Energy Management Agencies and meets regularly to exchange ideas and to promote promotional activities in the energy sector.

The Region of Andalusia is an extensive region with near 8 millions inhabitants, organised in 8 provinces. The following municipal and provincial energy agencies set up the ANDANER’s association for the coordination of managements, rue and res actions:

Agencia Andaluza de la Energía – Andalusian Energy Agency

Agencia Provincial de la Energía de Granada (APEGR) – Provincial Energy Agency of Granada

Agencia Provincial de la Energía de Huelva (APEH) – Provincial Energy Agency of Huelva

Agencia Provincial de Gestión Energética de la Provincia de Jaén (AGENER) – Energy Management Agency of the Province of Jaén

Agencia Local de la Energía de Sevilla (ALES) – Local Energy Agency of Seville

Diputación de Córdoba – County Council of Córdoba

Agencia Municipal de la Energía de Málaga del Ayuntamiento de Málaga – Energy Agency of Malaga (City Hall)

Agencia de la Energía de la Diputación de Cádiz – Energy Agency of Cádiz

Background:

Aim & programme: As of 30th June 2006, the ANDANER Steering Committee has met on the following occasions and information has been provided on the RES-E REGIONS project:

- 13th January 2005 in Seville, Board of Administration
- 15th December 2005 in Granada, Board of Administration and General Assembly
- 9th May 2006 in Jaén, Board of Administration and General Assembly

As well as receiving information on the project, the different Energy Agencies belonging to the Steering Committee carry out dissemination activities as well as providing targeted advice and experiences from their different regions.

Results: The meetings of the “Steering Committee” were attended by different partners of the Andalusian Energy Management Associations and therefore dissemination of the project has been realised all over the Autonomous Community of Andalusia.
