

## WP2 RES-e REGIONS: EVENT DESCRIPTION PLANNERS PLATFORM MEETING ON RES-E CONNECTED TO THE GRID IN ANDALUSIA IN SEVILLE

Agencia Andaluza de la Energía (Andalusian Energy Agency)

Planner's Platform Meeting on Photovoltaic Energy, 26<sup>th</sup> February 2007

**Title:** Planner's Platform Meeting *"Forum: Solar Photovoltaic Energy connected to the Grid in Andalusia"*

**Date & Location:** 26th February 2007, Einstein Meeting Room, 4th Floor, NW, Pabellón de Italia, Isla de la Cartuja, Sevilla, 41092

**Organiser:** Agencia Andaluza de la Energía (Andalusian Energy Agency)

**Financed by:** Agencia Andaluza de la Energía and the European Commission

**Number of participants:** 15

**Short description:** The Planner's Platform Meeting, organised by the Andalusian Energy Agency, was made up of a short presentation and two information sessions. The seminar focused on the basic objectives of debating the current situation and offering future solutions in the electricity generation market through photovoltaic systems, taking into account the opinion of the companies involved in the sector and the latest trends in the sector. Among which are the following: the implementation of the Technical Building Code, the connection points, financing of projects through new premiums, fiscal incentives, etc.

**Background:** The Planner's Platform Meeting was conceived to bring together manufacturing companies, promoters, public entities and associations of the sector, in order to exchange points of view and experiences in the area.

### **Aim & programme:**

The Planner's Platform Meeting was opened by Gonzalo Lobo Marquez, Director of the Promotion & Development Department of the Andalusian Energy Agency.

María Luisa Borra Marcos, Head of the Institutional and International Relations Area of the Andalusian Energy Agency, offered a presentation on Andalusian Energy Agency, the RES-e Regions project and the Sustainable Energy for Europe Campaign.

María Jesús Pérez-Solano presented a summary of the solar photovoltaic energy situation in Andalusia.

The Andalusian Energy Agency elaborated a survey to obtain more information on the issues related to the meeting.

### **Participants:**

- Ignacio de la Vega, ISOFOTÓN S.A.
- Licio Stuyck, ISOFOTÓN S.A.
- Ernesto Macías, General Manager of and Institutional Relations, ISOFOTON, S.A.
- Javier Anta, President, Spanish Photovoltaic Industry Association (ASIF, ASOCIACION ESPAÑOLA DE LA INDUSTRIA FOTOVOLTAICA)
- Carlos Calvo, Delegate of Gamesa Solar, GAMESA SOLAR
- René de la Torre, GAMESA SOLAR
- José Carlos García Caballero, Delegate, Solar del Valle
- Jaime Ventura, President, IDESA, Ingeniería Instalación y Desarrollo Solar
- Pablo Alonso Aguilar, Partner, ALONSO SOLAR FOTOVOLTAICA, S.L
- Agustín Martínez, Responsable Responsable Territorial Servicios de Red, ENDESA-DISTRIBUCION
- Miguel Torres Subiela, Head of Energy, General Direction of Industry, Energy and Mines
- Gonzalo Lobo Márquez, Director of the Promotion & Development Department, Andalusian Energy Agency
- María José Colinet, Head of the Renewable Energy Department, Andalusian Energy Agency (Agencia Andaluza de la Energía)
- Pedro Coza, Head of Department of Management of Energy Incentives, Andalusian Energy Agency
- María Jesús Pérez-Solano, Head of the Solar Energy Area, Andalusian Energy Agency (Agencia Andaluza de la Energía)
- María Luisa Borra, Head of the Institutional and International Relations Area, Andalusian Energy Agency (Agencia Andaluza de la Energía)
- Julie Barber, Institutional and International Relations Area. Andalusian Energy Agency (Agencia Andaluza de la Energía)

## **Programme**

- 12:00-12:15            Opening/Welcome (Andalusian Energy Agency)
- 12:15-12:30            Presentation of the European project Res-e Regions and the Sustainable Energy for Europe Campaign
- 12:30-12:45            Summary of the solar photovoltaic energy situation in Andalusia. Andalusian Energy Agency
- 12:45-13:45            **Forum-Debate I. Projects of solar photovoltaic energy connected to the grid in Andalusia. Grid-connected administrative procedures:** Contracts, grid connection, municipality licenses, electricity connection, repercussions of the approval of the Technical Building Code.  
Moderates: Andalusian Energy Agency. Presentation of the participants and the subjects to be dealt with. Andalusian Energy Agency and participants.
- 13:45-14:00            Break.
- 14:00-15:00            **Forum-Debate II. Projects of solar photovoltaic energy in Andalusia. Retribution and financing.** New draft of premiums. Situation in Spain and Germany as well as other countries. Participation of financial entities. Subsidies and fiscal incentives, future trends.

**Results, follow-up:** The surveys were collected from the participants after the meeting.
